

# ZOOM WEBINAR SERIES

## “Novel Microbes and Newer Threats”

Sathyabama Institute of Science and Technology

in Association with

Indian Association of Applied Microbiology (IAAM)

California University of Science and Medicine, USA

“Emerging Foodborne Microbial Threats: Challenges & Control Strategies”

**Date : 1.05.20 Time: 11:00 – 11:30**

Dr. Sadhana Ravishankar is an Associate Professor at the School of Animal & Comparative Biomedical Sciences (ACBS), University of Arizona, Tucson, Arizona, USA. She serves as the Chair of the University of Arizona Food Safety Consortium. Her research focuses on understanding the survival of foodborne pathogenic bacteria and their control using clean and green approaches. Her research has been featured in various mass media. She is a recipient of the ACBS Outstanding Faculty in Research Award. She has served in various federal grant review panels and as reviewer for international grants.
